Excel Data Processing Tool (UK)
- Developed **Excel Data Processing Tool** that provides a full end-to-end walkthrough of the process for mapping **general ledger (GL) expense codes** to **costing ledger (CL) expense codes**.
- This windows desktop application with GUI in C# to map the two columns of different excel sheets and find a similar match with greater than desired similarity and export it in an excel file. (Same as the plugin of Microsoft Fuzzy look-up and V look-up).
- **This tool is acquired by an organization based in the UK.**

Complaint Management - Indian National Congress (Junnardeo, India)
- Made a Complaint Management System for Junnardeo City in India (Most part of the website supports only the Hindi Language)
- Message API Integration and different Login System are there for different villages and constituencies.
- People can register their complaints through this portal and respective authorities can view and manage registered complaints.
- **Admin Side Username:** admin@gmail.com & **Password:** 12345 (https://inc.errsol.com/Admin-SunilUikey/)
- **Constituency Username:** Select from drop-down list & Password: 12345 (https://inc.errsol.com/)
